### **Radio & T.V. Tower Supplemental**

1. Please provide a breakdown of values for the tower, antennas, down leads, building, fence and any equipment in the tower owned by the insured.

---

---

2. Please advise details of the tower, i.e. guyed, self-supporting, fixed, pivot base, de-icing equipment, etc. \_\_\_\_\_

---

3. What alterations or additional equipment have been added?

---

4. What is the distance to nearest airport? Is it along a regularly scheduled air route?

---

5. Who provides service, inspections and what is the frequency?

---

6. Please advise the year built, manufacturer, who erected the tower and what code it meets.

---

7. What is the design wind pressure in pounds per square foot?

---

8. Would tower failure result in hazard to adjoining property? How are guy and tower legs protected from vehicle damage?

---

9. Please advise protection of equipment and transmission lines from lightning and vandalism.

---

10. What is the condition of tower and equipment and what type of repairs have been completed in the past 5 years?

---
